SCHOOL ENROLLMENT LARGE; 2,300 MARK IS APPROACHED

Believed by School People That 200 More Pupils Will Report Within Week

CHINESE BOY STARTS IN

Miss Edith Woodhall, Principal at Ninth Street Has Unusual Experience in Registering Lad—Says His Name is Lee Soo—Vaccinated Too

The largest enrollment in history—something of course quite natural considering the rapid growth of the town—is reported in the schools by Superintendent T. L. Pollock. Twenty-three hundred pupils in the grades and high school were counted this morning and children are still enrolling for the term. By the nd of this week or the first of next it is expected the 2,500 mark will be reached in enrollment and a ctual attendance

Two thousand pupils were reported in the grades this morning, with 300 in high school. Fifty-five new pupils from out-of-town entered high school, and there are over 100 from out-of-town all told in the educational institution on the hill.

Miss Edith Woodhall, principal of the Ninth street school had an unusual experience this morning when a Chinese boy enrolled. He said his name was Lee Soo, and that he lived on Sixth street. His father's name he said was the same as his own. Though appearing to be only about 13 years of age Lee solemnly informed the principal he was 17. "Have you been vaccinated?" she asked. Eagerly he began to tug at his jacket that he might show her. "Yes, yes," he assured her. It came out that he had been vaccinated by a Chinese doctor. Miss Woodhall sent him to a doctors office and back he came with the certificate while he was puzzling over what disposition to make of him. He could not read nor write, so into the first grade he was escorted. If his work merits it promotion will be made soon.

NEW ISSUE OF PHONE DIRECTORY DISTRIBUTED

The new issue of the Bell directory is being distributed to subscribers in Charleroi. The directory embraces 48 exchanges, with the names of all subscribers connected therewith. The issue of this directory consists of 23,000 copies, of which nearly 700 will be distributed in Charleroi.

Mr. Burwell, local manager for the company calls attention to the advisability of consulting the new issue before making familiar calls, as many subscribers have contracted for an improved class of service, resulting in changes of call numbers.

The telephone company urges the necessity of calling by number. The limits of memory and any change in the operating force make it impossible to render good service if connections are asked for by name.

A new feature of the directory, which will be found very useful, is the blank form on the second page of the cover for the names and numbers of persons frequently called.

BATTLERS PAY FOR MISDEEDS

Hearings Given Fifteen Foreigners by the Burgess Monday Night

PROPERTY MUCH DAMAGED

Fourteen men of foreign nationality crowded the office of Burgess S. L. Woodward Monday night to answer to charges of fighting, some of them having engaged in an imitation of the European war early Monday morning in the vicinity of Eleventh street and Meadow avenue. When Burgess Woodward had finished all had parted with some hard earned cash. One, Peter Iolsky, who had played a dual role by participating in two street frays was forced to be heard twice. On one charge he was fined $3, including costs and in the other case he was discharged.

Three battles were fought all over again in the burgess' office, and there was a peculiar jumble. Some of those who had taken part in the Meadow avenue and Eleventh street melee were found guilty of engaging in a Twelfth street and Meadow avenue affair at another hour. A Seventh street argument with serious aspects was included in the list of those disposed of. Those fined with the amounts of the fines and costs are as follows: Bert Kirstukas $3.50, George Dargosh $3.50, Charles Butch $3.50, Gust Tumshis $3, Frank Bratush $3, John Krolle $3, Frank Labinsky $3.50, Peter Iolsy discharged, Joe Mitchell $3.50, Peter Ioysky $3, Dargo Mickosh $3.50, John Gretts $3, John Grileoki $3, Peter Greets $3, Fred Meleyes $3.

Windows were broken and property damaged on Meadow avenue when the wild Monday morning soiree started. One brickbat brushed a baby in bed in a house near the corner, but the child was not hurt.

RICH COAL FIELD IS OPENED BY RAILROADS

Peace Between Pennsylvania Lines and the Wabash Established—Connection to be Constructed to Make Shipments Possible

Peace between the Pennsylvania lines and the Wabash Pittsburg Terminal Railway company has been established through an agreement between the receiver for the latter company and the Pittsburg, Cincinnati, Chicago and St. Louis branch whereby the Wabash company is granted permission to make connection with the Panhandle branch near Bridgeville, thereby opening to the commercial world on the Pennsylvania lines some of the richest coal fields of the Pittsburg district.

The agreement between the Pennsylvania lines and the Wabash Pittsburg Terminal Railway company with a blue print showing the proposed location of the connection was attached to the petition which was filed in the United States district court. The order was ganted by the court which means that with the restoration of peace between the two roads approximately 3,500,000 tons of coal will be given the long-sought outlet.

Last week, Horace F. Baker receiver for the Wabash Pittsburg Terminal, filed a petition praying that he be directed to expend the sum of $7,500 for the purpose of erecting the connection to which the Pennsylvania lines had agreed. The Wabash company is already at work on the connection It is expected that the work will be completed by October 1.

With this connection the Wabash shipments of coal will be opened to all roads entering Pittsburg. They already have connections with the Pittsburg and Lake Erie, Bessemer and Lake Erie, Baltimore and Ohio, Wheeling and Lake Erie and the Montour railroads.

LABOR DAY RACES TO OUTSHINE OTHER EVENTS NEXT MONDAY

Belle Vernon Track to be the Scene of Fast Going on the Part of Motorists—Getting Used to Track.

Outshining all other features arranged for Labor Day, the auto races to be held at Belle Vernon next Monday afternoon will surely attract the biggest crowd of the day.

Large street banners announcing the date of the postponed races are being suspended in the streets in all the towns up and down the valley today in addition to a comprehensive billing campaign. The high class entries, including some of the biggest racing drivers in the country, make up a card that has never been equalled in this section of the state.

Several of the pilots expect to visit the Belle Vernon course this afternoon and tomorrow and work on the course, getting used to the dangerous curves which have already caused two cars to go through the fence.

THIS THE LAST WEEK AT ELDORA

Park Season Practically at End—Announcements of Week Are Made

TO CELEBRATE LABOR DAY

This will be the last week at Eldora park and the season will be brought to a close next week. Tuesday night of this week will be the last night of the regular weekly Bingville dances and Friday night the last Weber dance will be held at the park this season.

This year rain has been a disappointing factor in park affairs, some of the best picnics and outings that were booked having to cope with inclement weather. However, generally speaking the season has been a good one.

One of the much enjoyed features started about the middle of the season was that of the weekly Bingville dance held by a Charleroi club. The Friday night Weber dances also proved interesting.

On Wednesday night of this week a benefit dance for John McGlade, of Coal Center, who had both arms taken off weeks ago on the railroad will be held by friends of his.

Labor Day will be celebrated at the park, and there will be dancing afternoon and evening.

Inquest Held at Monongahela Into the Killing of Detective Hilton

IMPORTANT TESTIMONY GIVEN

Miss Blanche McPherson Testifies, Together With Wife of Dead Man—Self Defense Plea Set up—Hilton Said to Have Yelled, "I'll Kill Him"

Dsspite the fact that the inquest in to the death of Detecive Wallace J. Hilton, who was fatally shot at Monongahela on the evening of Wednesday, August 18, by his stepson, Samuel E. McPherson, resulted as was expected, in the holding of the accused responsible for the crime it never theless brought a number of additional facts of which the general public was not aware and also showed that the trial of McPherson is to be bitterly fought on the grounds of self defense. Though it was shown that Hilton did not have his revolver at the time, it was in his coat pocket hanging in the hall and the defense will try to prove that McPherson shot only, after his life had been threatened by the man he shot.

The inquest was held Monday afternoon in the Bebout & Yoke undertaking rooms at Monongahela and was presided over by Coroner James T. Heffram. District Attorney R. C. Miller was in attendance to look after the interests of the commonwealth, while Carl E. Gibson, of counsel for the defense, represented McPherson. A stenographer was also present to take testimony. The jury composed of William Bowers, William Wilson, W. G. Wilson, Thomas Anderson, John Frost and John H. Sutman, which was empaneled at the time of the shooting and viewed the body before interment, assembled and heard a number of witnesses.

Practically all the evidence was to fix the date, time and circumstances preceding and following the shooting with the exception of that given by Mrs. Sarah Hilton, wife of the dead man and mother of the accused slayer and that of Miss Blanche McPherson sister of the accused and stepdaughter of the dead man. These two were eye witnesses to the shooting and it is virtually upon their testimony that the fate of the man now in the county jail will hang.

Miss Blanche McPherson testified that Hilton and her brother had some trouble a short time before McPherson went to camp at Indiana, at which time Hilton told him to get his clothes and get out and to stay out. She stated that she went to Hilton and placing her arm about his neck asked him not to quarrel with her brother while her mother was in the hospital; to wait until she came home to try to settle up their differences. She further stated that Hilton told McPherson that he could come back.

Miss Blanche McPherson told of the trouble between Detective Hilton and her brother that resulted in Hilton telling McPherson to take

INDIGESTION

There is no accounting for the trouble that dyspeptics have caused in this world. Every school boy can quote you, "yon' Cassius hath a lean hungry look", and this type has stalked through history and fiction, threatening the peace of individuals and nations, says the state health commissioner.

It is not surprising that the person who suffers from dyspepsia should take a pessimistic view of life. One of the chief functions of the body, digestion, is amiss and three times a day the sufferer is apt to be reminded of the fact.

The manifestations of digestive disturbances differ materially. Often enough they are not recognized as such, in fact in many cases the symptoms show themselves elsewhere than in the digestive organs. It may result in headache, defective sight, heart burn, dizziness or similar ways which continually recur or vary from time to time.

In the earlier stages indigestion may only discover itself as a general feeling of discomfort. The causes are numerous, hasty eating, the indulgence in ill chosen foods, iced drinks, eating when exhausted, or some functional disorder of one of the digestive organs.

Care as to the diet, sufficient time for meals, regularity in eating and care about overloading the stomach when tired, are things which should be observed by those who would avoid indigestion.

The causes of indigestion are numerous and sometimes so serious that the best medical skill should be called in to determine the source. The use of home remedies and patent medicines if depended upon, may consume valuable time that should have been devoted to more radical treatment.

HOW TIME FLIES

Abraham Reuf, the old political boss of San Francisco, has retired to his California ranch, presumably to enjoy whatever is left from his political profits after settling with his attorneys. He has been paroled by the state prison board, remarks the Punxsutawney Spirit.

It is hardly necessary to recall that Reuf is the man who in 1900 took Eugene E. Schmitz, a leader of an orchestra in a San Francisco theatre, and made him mayor, then used him as a tool in what has ever since been denominated San Francisco's "era of graft". The public has hardly forgotten how good citizens rose against the boodlers, got rid of Schmitz and convicted Reuf of bribery after a long and spectacular fight, in the course of which Francis J. Heney, the prosecutor, was shot in open court.

Reuf was given fourteen years in the penitentiary. He seems to have served this fourteen years since November, 1910.

How time does fly—when you're an influential convict.

More automobile accidents were reported on Sunday. They were more numerous because Sunday as a holiday provided the opportunity for speed maniacs to get at large.

When foreigners get to slinging stones and heaving brickbats to settle differences of the most inconsequential nature, the situation is serious to say the least. Burgess Wood and council cannot afford to be too lenient in dealing with these fighting clans. Still more might be accomplished by getting at the root of all such trouble, instead of coming in at the finish.

Attending school is about the hardest occupation the average boy could conceive of, unless perchance he has had actual experience with the workaday world. Studying represents to him the 13th degree of hard work, but that isn't what hurts so much. It is the giving up of pleasant vacation days. Yet vacations must always come to an end, and it rather seems that with the fun of today which goes along with studies—the sort of fun that accompanies athletic pastimes and social activities—school isn't such a bad sort of place to enjoy a fall, winter and spring vacation.

PICKED UP IN PASSING

Some time since two hoboes crawled from the box car where they had been sleeping and slowly started to go over the garbage route of the adjacent town.

"Say, Winston," smilingly remarked one of the precious pair, breaking the silence, "was you ever a married man?"

"Why, no, Mortimer," responded the other, with an expression of great surprise. "What makes you ask such a remarkable question?"

"Because" was the happy rejoinder of Mortimer. "you always sleep with your hands in your pockets."

In the current issue of Farm and Fireside appears the following:

"Wheat is not undisputed king, nor cotton either. The egg crop last year was worth about $700,000,000.

"The bulk of the poultry is produced mainly by the work of women and children. The supply from the specialized poultry farm is small compared to that from the farms where women care for the fowls and children gather the eggs.

"The hand that rocks the cradle is the hand that does its full share in feeding the world."

"What is it?" shouted the indignant citizen. "Why, you refer to me as a greedy jobber."

"That is too bad," replied the editor. "It is a typographical error, and I am sorry it appeared as it did."

"Oh, very well," answered the indignant citizen. "I accept your apology."

"I don't know how that fool linotype man came to set the word 'jobber,'" added the editor. "I wrote the word 'robber' very plainly."

Proposing an amendment to section one, article eight of the Constitution of Pennsylvania

Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met. That the following amendment to the Constitution of Pennsylvania be, and the same is hereby, proposed, in accordance with the eighteenth article thereof:—

That section one of article eight, which reads as follows:

A JOINT RESOLUTION

Proposing an amendment to section eight of article nine of the Constitution of Pennsylvania.

Section. 1. Be it resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, That the following is proposed as an amendment to the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth article thereof:—

Amend section eight, article nine of the Constitution of the Commonwealth of Pennsylvania, which reads as follows:

"Section 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city, the debt of which now exceeds seven per centum of such assessed valuation, may be authorized by law to increase the same three per centum, in the aggregate, at any one time, upon such valuation, except that any debt or debts hereinafter incurred by the city and county of Philadelphia for the construction and development of subways for transit purposes, or for the construction of wharves and docks, or the reclamation of land to be used in the construction of a system of wharves and docks, as public improvements, owned or to be owned by said city and county of Philadelphia, and which shall yield to the city and county of Philadelphia current net revenues in excess of the interest on said debt or debts, and the annual installments necessary for the cancellation of said debt or debts, may be excluded in ascertaining the power of the city and county of Philadelphia to become otherwise indebted: Provided, That a sinking fund of their cancellation shall be established and maintained," so that it shall read as follows:—

Section 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the consent of the electors thereof at a public election in such manner as shall be provided by law; but any city, the debt of which on the first day of January, one thousand eight hundred and seventy-four, exceeded seven per centum of such assessed valuation, and has not since been reduced to less than such per centum, may be authorized by law to increase the same three per centum in the aggregate, at any one time, upon such valuation. The city of Philadelphia, upon the conditions hereinafter set forth, may increase its indebtedness to the extent of three per centum in excess of seven per centum upon such assessed valuation for the specific purpose of providing for all or any of the following purposes,—to wit: For the construction and improvement of subways, tunnels, railways, elevated railways, and other transit facilities; for the construction and improvement of wharves and docks and for the reclamation of land to be used in the construction of wharves and docks, owned or to be owned by said city. Such increase, however, shall only be made with the assent of the electors thereof at a public election, to be held in such manner as shall be provided by law. In ascertaining the borrowing capacity of said city of Philadelphia, at any time, there shall be excluded from the calculation a credit, where the work resulting from any previous expenditure, for any one or more of the specific purposes hereinabove enumerated shall be yielding to said city an annual current net revenue; the amount of which credit shall be ascertained by capitalizing the annual net revenue during the year immediately preceding the time of such ascertainment. Such capitalization shall be accomplished by ascertaining the principal amount which would yield such annual, current net revenue, at the average rate of interest, and sinking-fund charges payable upon the indebtedness incurred by said city for such purposes, up to the time of such ascertainment. The method of determining such amount, so to be excluded or allowed as a credit, may be prescribed by the General Assembly.

In incurring indebtedness, for any one, or more of said purposes of construction, improvement, or reclamation, the city of Philadelphia may issue its obligations maturing not later than fifty years from the date thereof, with provision for a sinking-fund sufficient to retire said obligation at maturity, the payments to such sinking-fund to be in equal or graded annual instalment. Such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking-fund charges accruing and which may accrue thereon throughout the period of construction and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred; and said city shall not be required to levy a tax to pay said interest and sinking-fund charges, as required by section ten of article nine of the Constitution of Pennsylvania, until the expiration of said period of one year after the completion of such work.

No act shall prescribe any limitations of time within which suits may be brought against corporations for injuries to persons or property, or for other causes different from those fixed by general laws regulating actions against natural persons, and such acts now existing are avoided," so that it shall read as follows:

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That the following is proposed as an amendment to the Constitution of the Commonwealth of Pennsylvania, in accordance with the provisions of the eighteenth (XVIII) article thereof:—

You uncork that sunshine tank

by letting some Prince Albert joy smoke sift into your system via a jimmy pipe or makin's cigarette, for you never got such fun out of tobacco in all your life.

Get that P. A. flavor? Get that P. A. aroma? Go to it mighty cheerful, because P. A. can't bite! Puff away like you hit perpetual motion in the first round! And keep fired-up till the cows come home. For it's *surefacts* Prince Albert never grouched any other man's tongue and *won't grouch yours!*

Get P. A. jimmypipejoy'us and cigarette makin's happy, then you'll *personally* understand that no other pipe and cigarette tobacco *ever was* or *ever can be* like Prince Albert. The patented process fixes that—and cuts out the bite and the parch. That's why pipe peaceful and cigarette peaceful men call

PRINCE ALBERT

the national joy smoke

You be a sport and take a chance on this say-so, because you've no idea of the bully goodness, of the joy'us satisfaction, of the contentment and restfulness and that sort of thing, that hits every man who gets chummy with P. A.

Hammer this home for what ails your smokeappetite, because you've no time to lose getting introduced to this real and true man-tobacco that's ace-high and a yard wide no matter how you swing on it, jimmy pipe or makin's cigarette!

Here is another just-elected member of the Prince Albert "old-time jimmypipers club." This is John O'Reilly, of East Providence, R. I., who has just passed the century mark. Mr. O'Reilly is one of those grand old men who has come to this ripe age with the joys of his friendly jimmy pipe fresh in his mind each morning. He has always been a liberal smoker.

Prince Albert is sold everywhere because the demand for it is universal. So wherever you happen to run short just drop in the handiest shop that sells tobacco and say the toppy red bag for a jitney piece, 5c; tidy red tin, 10c; handsome pound and half-pound tin humidors; and that classy crystal-glass pound humidor with sponge-moistener top.

Use Zinc as Nuggets.

A shoveler in one of the Joplin zinc mines who had seen in the movies how the gold miners bought what they needed with gold nuggets, recently laid a small chunk of zinc ore on a bar counter and called for a beer. The bartender served the drink to him and laid down 20 cents in change, and of course the crowd laughed and cheered.

Such is the spirit of the Joplin zinc boom, with crude zinc ore now worth seven cents a pound, which is about 50 per cent higher than the refined product spelter has averaged for many years.—Wall Street Journal.

The Difficulty.

Maud—Haven't you and Jack been engaged long enough to get married?

Marie—Too long. He hasn't got a cent left.—Boston Evening Transcript.

WAS QUITE TOO THOUGHTFUL

Husband Who Received Basket of Soft-Shell Crabs From Wife Saved the Bread for Himself.

"Yes, I've heard from my wife and she's going to hear from me. Down on the shore where she is they have the very finest soft-shell crabs that ever used a nipper, and when they're fried they show themselves for the kindly disposition critters they are. Well, this morning I got word from my wife that she was going to send some of 'em fried and ready to eat. 'A fine lot' is the way she told me about 'em, and I had visions of about a bushel of 'em; so I promptly notified friends in the East end that they were on the eats.

"When the package arrived at the office it wasn't as large as I had expected, but I told myself not to be greedy and decided to make a fair division. Division seemed easy, for the package contained two smaller packages. Opening one, I sampled the goods and found them worth while and then passed them around in the office. They lasted three minutes. Then with the other package neatly tied I took a car for the East end. This is where the drama approaches the 'smash.'

"My wife is a very thoughtful woman. When she provides a lunch she provides the trimmings. It was quite a little snack she wanted me to have at the office and she carefully put the crabs in one package and—

"Yes, you have it! When I proudly opened that package in the presence of my East end friends, I found that it contained four slices of bread!"—Pittsburgh Dispatch.

Base Deception.

Rankin—That's the greatest skin game I ever saw.

Phyle—What do you mean?

"That show advertises a tattooed man."

"Well?"

"And the gink inside is simply covered with transfer pictures."

For Bachelors.

"Why are you unhappy?" we asked the unspeakable Turk. "Here you have just wed a third beautiful wife."

"That's all right so far as it goes," he responded. "But when I had only two I held the balance of power, but now—"

The Modern Method.

"Your new novel is in some ways a bit out of date."

"How, for example?"

"Well, you make the heroine sweep the room with a glance, when today everybody is using vacuum cleaners."

Carelessness.

Mr. Flatbush—I see during some recent explorations at Pompeii an ancient kitchen was unearthed. In the fireplace there was a kettle on the grate, just as it was left 1,826 years ago by some cook residing in that city.

Mrs. Flatbush—Such carelessness! You can't tell me she hasn't had an opportunity to put that kettle away in all this time!

Hard to Get.

"Have plenty of trouble with cooks, I suppose?"

"The cooks would be all right if I could only get the necessary supplies."

"What do you mean?"

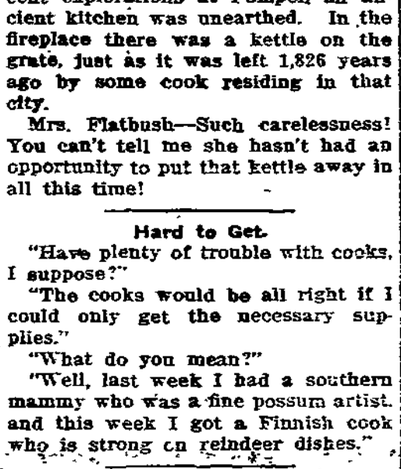
"Well, last week I had a southern mammy who was a fine possum artist, and this week I got a Finnish cook who is strong on reindeer dishes."

Putting It Nicely.

Former Mistress—I would like to give you a good recommendation, Delia, but my conscience compels me to state that you never get the meals on time. I wonder how I can put it in a nice sort of way.

Delia—Yez moight jist say thot Oi got the meals the same as Oi got me pay—Puck.

THE REASON.



She—Daisy married old Gotrox, but she was engaged to his son.

He—Yes, but Gotrox threatened to cut off his son's allowance if he married her.

Woozy Decorations.

"I understand," said Uncle Bill Bottletop, "that the Turks are total abstainers."

"Yes."

"Well, maybe they are. But I can't see how any total abstainer could think up some of the designs they put on Turkish rugs."

CORONER'S JURY

(Continued from page one.)

his clothes and get out. McPherson did as told, she said, but came back on the evening of the shooting for more of his clothing and his tools. He said he wanted to get his belongings while Hilton was absent. However, Hilton came home while the two were gathering McPherson's tools, then according to her story Hilton attacked her brother while she was starting to get supper. She testified to falling down beside him, coaxing him to let her brother go. Hilton said "get away, I'll kill him." Three shots were fired. One struck Hilton on the third finger of the left hand. She stated that he had sufficient time to get up had he wanted to, before the other two shots were fired.

Mrs. Hilton was the last witness. The dead man was her husband and the accused her son. She was called upon to give testimony which on one hand might avenge her husband and send her son to the electric chair and on the other hand might save her son at the expense of the love and sense of duty she had for her husband .

She told her story in a quiet yet firm manner, of the return of her husband and of hearing the blow and her son falling to the floor. She rushed into the kitchen and with the agonized cry, "my son" she dropped on her knee and caught her husband's arm, begging him not to strike the prostrate young man. She stated that her husband pushed her aside, knocking her down and crying "let go of me, I'll kill him." Then the shots were fired and her husband rolled off her son, mortally wounded.

The jury deliberated but a few minutes and returned a verdict to the effect that death was due to hemorrhages as a result of a gunshot wound and recommended that McPherson be held on a charge of murder.

How to Fight Tuberculosis

In a paper read last year before the Bexar County Medical Society and published in part in the Louisville "Medical Progress," Dr. J. W. Gerhart, of San Antonio, Texas, a physician who has devoted much time to the study of tuberculosis, said: "Since lime salts constitute three-fourths of all the mineral substances of the human body, they must be supplied in the foods or supplemented in mineral preparations, or natural starvation ensues with tuberculosis unchecked. The widespread and unchecked spread of tuberculosis and other preventable diseases is due largely to the decalcified (lime lacking) conditions of multitudes throughout the civilized world."

Thus from another authoritative medical source comes justification for the use of lime in the treatment of tuberculosis.

Since this is one of the ingredients of Eckman's Alterative, much of the success attending the widespread use of this remedy during is due to the combination of this salt in such a way as to render it easily assimilable. It causes no stomach disturbance, and since it contains neither opiates, narcotics nor habit-forming drugs, it is safe to try.

Eckman's Alterative has effected remarkable results in numerous cases of pulmonary tuberculosis (consumption) and allied chronic affections of the throat and bronchial passages. In many instances such conditions, apparently, have yielded completely to it
